FOR IMMEDIATE RELEASE

Physician Adds Third Location to Practice

Dr. Max Norris today announced the addition of a third location for his Natural Life Health Clinic in Northwest Arkansas. Dr. Norris' offices are currently located at 510 South Harris in Huntsville, Arkansas, and at Ozark Herb & Spice, 1501 S.E. Walton Boulevard in Bentonville, Arkansas. The additional location will be located at 608 W. Emma in Springdale, Arkansas in About You Salon & Spa. The Huntsville location serves patients on Monday mornings, and Wednesdays and Fridays from 9:00 – 4:00 pm, while the Bentonville location accepts patients on Tuesdays and Thursdays from 9:00 – 4:00 pm. The new location on Emma in Springdale will accommodate local patients from 1:30 pm – 4:30 on Mondays.

Dr. Norris is a Doctor of Chiropractic, certified Naturopath, and has a Diplomate in Acupuncture. He specializes in treating migraines, stress, fibromyalgia and many other structural, energetic and immune disorders. His mission is to help increase quality of life by reducing pain, restoring health and slowing the aging process. His practice focuses on the use of Chiropractic treatment, Acupuncture, and nutritional therapy in providing Holistic Health care.

“We provide a natural approach to wellness that seeks to treat the whole body as a system rather than selected symptoms. Lifestyle, nutrition, physical activity and stress are all factors in one's health,” states Norris.

“Practitioners of this approach use only natural remedies and modalities and focus on patient education and responsibility in respect to healthy lifestyle choices, stress management and a reduction in exposure to toxic chemicals and pesticides. The idea of a holistic approach to health is as old as medicine itself. The body will heal itself if given a chance.”

Dr. Norris' treatment options also include Facial Regeneration techniques. His non-invasive process involves acupuncture procedures, micro current, facial massage, and new cold infrared laser technology. The result is a decrease in lines and wrinkles in the face and neck.
